HOLIDAY WASTE PREVENTION

It is estimated that between Thanksgiving and New Year's Day, more than 1 million tons of additional waste are generated each week nationwide. Use these tips to help reduce your waste this holiday season!

- ❄ Get creative with your wrapping paper by reusing things like maps, the Sunday comics, and posters.
- ❄ About 40% of all battery sales occur during the holidays. This year, switch to reusable/rechargeable batteries.
- ❄ Consider giving an experience instead of an object. The gift of your time (cooking, babysitting, gardening) a charitable donation, or tickets to an event are all great gift ideas that require little to no packaging.
- ❄ And when the holidays are over, remember that non-glitter wrapping paper, greeting cards, tissue paper, and cardboard boxes can all be recycled in your blue recycle carts!
