## New Sharps Mail-Back Disposal Options

Home-generated sharps, or simply "sharps," are needles, syringes with needles, and disposable lancets like the type diabetics use to test their insulin levels.

Sharps can harm or seriously injure recycling workers! Please help us in making sure they are disposed of safely. You can order a FREE mail-back sharps container from California's free sharps take-back program at [sharpstakebackcalifornia.org](http://sharpstakebackcalifornia.org), or from MarBorg by calling (805) 963-1852. Once filled, simply mail the containers to the designated safe disposal facility with the included FREE postage. Containers can also be picked-up and dropped-off at Santa Barbara County Health Clinics. Learn more at [www.LessIsMore.org/sharps](http://www.LessIsMore.org/sharps).

# Safely Dispose of Household Hazardous Waste

Common types of hazardous waste include fluorescent tubes and bulbs, paint, fertilizer, motor oil, batteries, aerosol cans, cleaning products, pool chemicals, and pesticides. These materials can pose environmental and health risks, and they must be disposed of properly. Legally, households may not transport more than 15 gallons of liquid or 125 pounds of dry hazardous materials. Please ensure containers have secure fitting lids and be no larger than five gallons each. If the material is not in its original container, please write the name of the material on the container and inform County staff.

Households in Santa Barbara County may dispose of hazardous waste at the locations below. Please check with the specific location prior to dropping off waste:

**County's Community Hazardous Waste Collection Center (CHWCC)** – Accepts almost all common household hazardous waste! But please don't bring e-waste, sharps, pharmaceuticals, bio-hazard waste, ammunition, explosives, or anything radioactive! Residents in the cities of Goleta and Santa Barbara, as well as the unincorporated areas of Santa Barbara County are eligible to use the CHWCC and are required to show proof of residency by bringing one of the following: driver's license, utility bill, or car registration.

- **Located on Mesa Rd on the UCSB Campus** – Saturdays from 9 am – 3 pm and Sundays from 11 am – 3 pm.

**MarBorg Industries' Recycling/ABOP Facilities** accept Antifreeze, Batteries, motor Oil, and Paint, making the acronym, ABOP!

- **Santa Barbara Location (132 Nopalitos Way)** is open to residents Monday - Saturday 8 am – 4 pm.
- **Goleta Location (20 David Love Place)** is open to residents Monday – Friday 8 am – 4 pm and certain Saturdays 8 am – 1 pm.
- **Buellton Location (97 Commerce Dr)** is open to residents on Fridays and Saturdays 7:30 am – 1 pm.

Visit [www.LessIsMore.org/hazardouswaste](http://www.LessIsMore.org/hazardouswaste) for additional information about acceptable items and facility location details.
